Biblioteca Italian will not meet in June.

ICI announces scholarships

The mission of the Italian Cultural Institute is to celebrate and share Italy's unique history and culture through educational programs and events for the community. In pursuit of this mission, the Institute is awarding scholarships and grants to worthy individuals in our region who can bring a better understanding of Italian art, history, literature, music, wine, food, or other important aspects of the culture to our community. Recipients will be selected on the basis of their ability to benefit personally and professionally from the study of, and exposure to, a particular aspect of Italian culture. The recipient shall bring this experience back to our community and the membership of the Institute through a performance, body of work, or demonstration of learning in the chosen field. In addition to the Application Form and other supporting materials, those interested will submit to the ICI Scholarship/Artisan Grant Committee a 500 word statement of purpose which clearly outlines the proposed project or course of study and explains how the applicant will benefit personally, professionally or academically from the experience. This statement of purpose must include a description of the performance, body of work or demonstration of learning in the chosen field that the scholarship recipient will bring back to the Italian Cultural Institute, and to the community, as a result of this study experience.

For further information see icilouisville.org, home page, follow link to Grants; also download application forms.
